

MD Ishtiaq Hossain

Vatara,Dhaka • 01646770662 • arnoba262@gmail.com

EDUCATION

American International University of Bangladesh

Expected Graduation June 2027

Bsc. In Electrical and Electronics Engineering

Milestone College

November 2023

Higher Secondary School

EXPERIENCE

Active Member, IEEE AIUB Student Branch Dhaka,

Bangladesh | 2025 – Present

- Participated in technical workshops, seminars, and industry-oriented events related to engineering and technology
- Collaborated with peers on projects and discussions aligned with real-world engineering challenges
- Enhanced professional communication and teamwork skills through IEEE activities

Private Tutor, Self-Employed

2024 – Present

- Delivered personalized instruction to students, adapting teaching methods to different learning styles
- Improved students' academic performance through structured lesson planning and progress tracking
- Strengthened communication, time management, and client-handling skills

PROFESSIONAL AFFILIATIONS & ACTIVITIES

Member, AIUB Community of Engineering Students | 2024 – Present

Engaged in academic discussions, technical events, and collaborative engineering activities

Member, Engineering Students' Association of Bangladesh | 2024 – Present

Participated in national-level engineering programs, workshops, and professional development initiatives

PROJECTS

- Transmission line fault protection system
- Digital code lock system
- Water tank water level indication system
- DC generator and load testing
- Line follower Robot(ongoing)

SKILLS

Microsoft Word

Certified; advanced document formatting and professional reporting

Google Workspace (Docs & Sheets)

Proficient in documentation, data organization, and collaboration

NI Multisim

Skilled in circuit simulation and analysis for electrical and electronics projects

KiCAD

Proficient in PCB design, schematic creation, and layout planning

Logic Design

Experienced in digital logic circuits, combinational and sequential system design

AutoCAD

Skilled in leading computer-aided design (CAD) software used by engineers, architects, and designers to create precise 2D drawings and 3D models.

Matlab

Skilled in matlab, Simulink and designing buss system

Language

- Bengali
- English
